## Can I save some money?

For more information on energy efficiency or to track your energy usage, visit [britishgas.co.uk/energysaving](http://britishgas.co.uk/energysaving)

### 1. Get free insulation in your home

If your home isn't properly insulated, you could be wasting money. As much as £140 through the loft and £160 through the walls, every year (that's what the Energy Saving Trust estimate, you can find out more at [energysavingtrust.org.uk](http://energysavingtrust.org.uk)). The good news is, as part of a government initiative, we're giving away insulation to millions of UK homes and best of all it's free.

#### It's easy to see if your home is suitable

Fill in our survey online at [britishgas.co.uk/insulation](http://britishgas.co.uk/insulation) or give us a ring on **0800 107 8499\*** to check if your home is one of the millions that can get it for free.

### 2. Be energy aware

One of the best ways to reduce your bill is to use less energy. At British Gas, we want to help you get on top of your energy usage and are happy to provide advice about where to start and the tools you need to make a change. For top tips on saving energy in your home, visit: [britishgas.co.uk/energysaving](http://britishgas.co.uk/energysaving)

There are a few areas of the country we can't reach, to check if you live in one of them just give us a call. Modern houses are built with insulation – check the details on our website. We give free insulation under the Energy Companies Obligation and we'll need to do a survey to make sure your house qualifies. We'll cover the cost of the insulation itself but if your house needs more vents than usual, or we need to use scaffolding, you may need to help with the cost. But don't worry, we'll tell you in advance if this applies to your home. If you rent your house, you'll need your landlord's written permission.

\*We're here Monday to Friday 8am to 8pm and Saturday 8am to 4pm. We record calls to help improve our service to you.

### 3. Change

To change the way you pay go to our website or speak to one of our team.

You could save 0.89p per kWh discount off your electricity unit rates by changing to Direct Debit.
