Please check this information

You need to make sure that all your taxable income and taxable state benefits have been included and are shown correctly. The tax code(s) shown need to match those shown on future payslip(s) / pension advice slip(s).

If the information is right, **you don't need to contact us.**

These notes will help you understand how we have worked out your tax code(s)

Note 1	Personal Allowance	This is the standard amount of taxable income most people can have before they start paying Income Tax. If your total income exceeds £100000, your allowance goes down proportionally.
Note 2	Tax Code T	Shows that your tax code will not change until it has been reviewed by us.
Note 3	Tax-free amount	<p>To create your tax code, we've removed the last digit of your tax-free amount and included a letter. If you have more than one source of income, your tax-free amount may be split across these. We tell your employer(s) or pension provider(s) your tax code but we do not tell them how we worked it out.</p> <p>If your total income and taxable state benefits for the year are more than your tax-free amount then you will pay tax as follows:</p> <ul style="list-style-type: none"> • at 20% on the first £31785 • at 40% on income between £31786 and £150000 • at 45% on anything over £150000

Your tax code has changed because of information in your tax return.

Please keep this tax code notice

You may need it if we send you a P800 Tax Calculation or if you have to complete a Self-Assessment tax return.
