Your monthly payments explained

Commencing from November 2013 the monthly payment of interest is £208.38.

If you pay by Direct Debit, your payment will be adjusted automatically.

This is an interest only mortgage. Your contractual monthly repayment repays the interest due but does not reduce the capital borrowed. Your mortgage payments do not include the costs of any savings plan or other investment you may have arranged to build up a lump sum to repay the amount you borrowed. It is important to check regularly that your savings plan or other investment is on track to repay this mortgage at the end of the agreed term. For further information on interest only mortgages please refer to page eight of 'Your Annual Mortgage Statement Explained' booklet included within this mailing.

Important Information

Additional borrowing drawn down from the Mortgage Current Account Reserve is charged at the Woolwich Standard Variable Rate except for Offset mortgages where interest is charged at the Offset mortgage rate. On any outstanding Reserve Facility balance interest will accrue and the Reserve Facility balance will increase as a result of this, though please note that on Offset Mortgages interest will be debited to your Mortgage Account. Any funds drawn from the Reserve Facility are secured against your property, must be repaid by the end of the mortgage term and will require you to put additional arrangements into place to repay this, as your monthly contractual mortgage repayments do not cover the additional borrowing.
